

Support the Center for Meteorite Studies!

Your gift supports the pursuit of new knowledge about the origin of our Solar System through the study of meteorites (and by analogy, extrasolar systems as well) so that we may understand the pathway to forming habitable worlds. The Center is dedicated to sharing this knowledge with students, educators and the general public by providing educational opportunities that expand awareness and understanding of the science of meteoritics and the origin of our planetary system. In support of its research and educational activities, the Center pursues cutting-edge conservation approaches for its existing meteorite collection, while also seeking new, significant meteorite samples. In so doing, samples from the collection may be made accessible to the public and scientific community.

You can help ensure the continued success of The Center for Meteorite Studies, home to the world's largest university-based meteorite collection. We offer several ways to help the Center fulfill its mission. Please consider making a contribution today.

Choose the investment level that best meets your personal giving interests:

___ **Patron Level \$1000***

Includes a guided tour of our gallery and meteorite vault, plus lunch with a CMS scientist, for you and a guest. You will also regularly receive our online newsletter, and invitations to periodic special events hosted by the Center.
